Date: August 28th 2013

Dear Sir, Madam,

We herewith confirm that Jonas Abel, born December 4th 1980 in Oslo, Norway, was employed as a full-time designer and visualiser with our office from January 7th to June 30th 2013

His position carried the following responsibilities:

- Work as a design assistant for Frank Laupman
- Work in our exterior design team as a designer and visualiser

Jonas has a powerful hand when it comes to hand sketching and turning these sketches into appealing concept presentations with just regular Photoshop tools. Therefore we will miss his personal contribution.

Jonas took his time to improve his skills as a 3D CAD designer. He translated his experience with Alias software and Maxwell render, to the use of Rhino modeler and 3D Max render software.

Furthermore, we thank him for his enthusiastic contribution to the internal discussion on exterior design, which we had with him.

We wish Jonas good luck with his career.

Yours faithfully,
Omega Architects

Frank Laupman
